ARNPRIOR, ONTARIO, CANADA - AUGUST 21, 2006 - Tolerant Solutions (www.tolerantsolutions.com), provider of web hosting, web & graphic design, and custom web-based applications, is pleased to announce new high bandwidth web hosting plans. These packages include toll-free technical support, control panel administration and loads of bandwidth! Two new packages have been introduced, the 100GB Plus Plan, and the 300GB Plus Plan. The 100GB Plus Plan features 10 gigabytes of disk space, 100 gigabytes of data transfer and unlimited features starting at \$52.00 (U.S.) monthly.

Tolerant Solutions Web Hosting accounts come equipped with free e-mail technical support, sub-domain support, SSI, PHP, CGI/PERL, TCL, control panel administration, frontpage extension support, graphical logs and statistics, and more!

TOLERANT SOLUTIONS provides web hosting, graphic design, web site design and implementation, server co-location, as well as web-based applications development and web integration. Tolerant Solutions provides web presence services for individuals to large corporations, and enables an interactive experience for those desiring a more integrated approach in implementing a web presence.
